3 MARKET UPDATES

The 2022 is considered a risky year for the global economy. Difficulties are forecasted to be very large and may lengthen. It could be pushing many countries across world into recession. The Ukraine-Russia conflict has contributed to the negative impact of global trade, broken supply chains, shortages of important goods such as food, gas, and surging commodity prices. Beside the Ukraine-Russia conflict, China also adopted a Zero-Covid policy throughout the first half of 2022 which exacerbated difficulties in global trade. Inflation in the US and Europe increased sharply, nearing double digits, prompting these countries to accelerate the progress of tightening and raising interest rates.

Regarding the domestic picture, the Government has requested to open the economy after the epidemic. The Government issued Resolution 11/NQ-CP dated January 30, 2022 on the socio-economic recovery and development program and implemented Resolution No. 43/2022/QH15 of the National Assembly on fiscal and monetary policy in 2 years 2022-2023. Promote disbursement of public investment with key infrastructure projects as driven for socio-economic development. These policies have brought effectiveness and created a driving force for economic recovery. Socio-economic in the first 6 months of 2022 has achieved many positive results. Almost sectors and fields have been recover and grow strongly.

In that general context, the gross domestic product ("GDP") in the first 6 months of 2022 grew by 6.42% against with the same period last year. This level is still lower than the same period of 2018 and 2019. In which, the fastest growing sector was the industry and construction sector with a growth rate of 7.7%, followed by the service sector with 6.6% growth rate, the last was agricultural sector with a growth rate of 2.78%. In term foreign trading, the total import and export turnover in the first half of 2022 reached USD 371.1 billion, of which exports value reached USD 185.94 billion, up 17.3% over the same period in 2021; imports value reached \$185.2 billion, up 15.5%; net trade surplus USD 0.7 billion. Vietnam's foreign trade is forecasted to reach a record high with more than USD 700 billion in 2022, double Vietnam's GDP. Purchasing Managers' Index ("PMI") in June 2022 recorded at 54, slightly down from 54.7 in May 2022. PMI in June shows that business conditions are continuing to improve, although the input production costs as well as the shortage of orders are increasing pressure. The foreign direct investment ("FDI") accumulated until the first haft of 2022 is relatively stable when disbursed capital increased by 8.9% to reach 10 billion USD, while registered capital decreased slightly by 1.2 % over the same period last year reached 19.7 billion USD. Regarding inflation, despite commodity prices rocketed, such as petrol, food... Vietnam's inflation has been controlled quite well. CPI in June 2022 marked at 3.37% compared to June 2021, corresponding increasing of 3.18% compared to the beginning of the year, below the Government's target of 4%.

For the currency market, in the first half of 2022, the Dollar Index (DXY) increased strongly, reflecting the market fluctuations when the FED decided to raise interest rates and risk from the Ukraine-Russia war don't stop. The value of VND also dropped by nearly 2.5% in the first half against the USD, due to the tightening of monetary policy by the Fed and sharply increase of US bond yields. However, we expect the exchange rate to be not too volatile, by Vietnam's foreign exchange reserves accumulated at a high level – USD 109 billion as of 2021. Addition, Vietnam continues to have a trade surplus in the first haft of 2022, Balance of Payment be expected positive in this year. At the same time, the State Bank of Vietnam at the end of Q2 has started selling USD to meet demand of market for stabilization FX. Interbank interest rates keep high level, as liquidity in the interbank market was not much abundant compared to early 2021. Credit grew strongly, more than 9% YTD as of June 2022. This made pressure for inflation and the liquidity of the market. Bond yields continued to increase strongly at all tenors, especially yield of short-term bond increased faster than long term bond, the yield curve become flatter.

5 MARKET PROSPECTS

In 2022, the Government has set a target to accelerate disbursement of public investment, and this is also an important driving force to boost the economy and support post-pandemic recovery. In the context of declining international capital for investment and development, especially ODA, domestic mobilized capital will continue to play an important role and the pressure to issue government bonds is huge.

In addition, the State Bank is expected to continue operating monetary policy proactively and flexibly but maintaining low interest rates to support economic recovery. However, the trend of raising interest rates by central banks in 2022 has been confirmed when inflation pressure may also affect strongly, and this made the government bond market becomes riskier in 2022.

The corporate bond market is becoming an important role in raising long-term fund for enterprises, when bank loan channel is hardly to meet the high demand of enterprises. However, some individuals and organizations have taken advantage of the policy and issued bad quality bonds, causing risks to the market and investors. State agencies are actively controlling these problems to help the market develop healthier in the long term

REPORT ON THE REVIEW OF INTERIM FINANCIAL INFORMATION TO THE INVESTORS OF DFVN FIXED INCOME FUND

We have reviewed the accompanying interim financial statements of DFVN Fixed Income Fund (“the Fund”) which were prepared on 30 June 2022 and approved by the Fund’s Board of Representatives on 12 August 2022. The interim financial statements comprise the interim statement of income, the interim statement of changes in Net Asset Value, subscriptions and redemptions of Fund units, and the interim statement of cash flows for the six-month period ended 30 June 2022, the interim statement of financial position and the statement of investment portfolio as at 30 June 2022, and explanatory notes to the interim financial statements including significant accounting policies, as set out on pages 17 to 54.

Responsibility of Board of Executives of Dai-ichi Life Vietnam Fund Management Company Limited (“the Fund Management Company”)

The Board of Executives of the Fund Management Company is responsible for the preparation and the true and fair presentation of these interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System applicable to open-ended investment funds including Circular 198/2012/TT-BTC issued by the Ministry of Finance on 15 November 2012 on the promulgation of accounting system for open-ended investment funds (“Circular 198/2012/TT-BTC”), Circular 181/2015/TT-BTC issued by the Ministry of Finance on 13 November 2015 on the promulgation of accounting system for exchange-traded funds (“Circular 181/2015/TT-BTC”), Circular 98/2020/TT-BTC issued by Ministry of Finance on 16 November 2020 on providing guidance on operation and management of securities investment fund (“Circular 98/2020/TT-BTC”) and prevailing regulations on preparation and presentation of financial statements applicable to open-ended investment funds and for such internal control which the Board of Executives determines is necessary to enable the preparation and presentation of interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express a conclusion on these interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements 2410, *“Review of Interim Financial Information Performed by the Independent Auditor of the Entity”*.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not present fairly, in all material respects, the financial position and the investment portfolio of the Fund as at 30 June 2022, and the results of its operations, changes in Net Asset Value, subscriptions and redemptions of Fund units and cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, Vietnamese accounting regulations applicable to open-ended funds including Circular 198/2012/TT-BTC, Circular 181/2015/TT-BTC, Circular 98/2020/TT-BTC and prevailing regulations on preparation and presentation of financial statements applicable to open-ended investment funds.

Other matter

The independent auditor's review report is prepared in Vietnamese and English. Should there be any conflict between the Vietnamese and English versions, the Vietnamese version shall take precedence.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2022****1 GENERAL INFORMATION OF DFVN FIXED INCOME FUND****1.1 Licence for Fund Certificate Public Offering and Registration Certificate for Open-ended fund establishment**

DFVN Fixed Income Fund (“the Fund”) was established as a public open-ended fund under Establishment Registration Certificate No. 02/GCN-UBCK (“the ERC”) issued by the State Securities Commission (“the SSC”) on 4 February 2021. The charter capital of the Fund as stipulated in the ERC is VND60,173,500,000, equivalent to 6,017,350 fund units. The Fund operates in compliance with the Fund Charter issued on 22 April 2021. The Fund has an indefinite life.

The Fund units were issued to the public for the first time pursuant to Initial Public Offering Certificate No. 238/GCN-UCK issued by the SSC on 20 October 2020. According to this certificate, the Fund is authorised to raise a minimum of VND50,000,000,000 from the public with a par value of VND10,000 per fund unit.

The Fund units are issued and redeemed through distributors.

The Fund has no employees and is managed by Dai-ichi Life Vietnam Fund Management Company Limited (the “Fund Management Company”). HSBC Bank (Vietnam) Limited has been appointed as the supervising bank and custodian bank of the Fund.

1.2 General information of the Fund’s operations***Size of the Fund***

Pursuant to the Establishment registration certificate, the Fund’s charter capital is VND60,173,500,000.

The Fund’s capital is based on the actual contribution of the unitholders presented in Note 6.6.

Investment objective

The Fund aims to achieve sustainable growth in the medium and long term through investments in fixed assets of good credit quality. The Fund’s objectives might change from time to time depends on the market conditions and the decision of Investors’ General Meeting or the Board of Representatives to maximise its profits for investors under the compliance with prevailing laws and regulations.

Frequency of Net Asset Value (NAV) valuation

The Fund’s NAV is determined on a weekly and a monthly basis. The weekly valuation date is the Tuesday. In case where the weekly valuation date falls on holidays of the Vietnam stock market, or the trading suspension date at the Stock Exchange under any decision of the Government Authorities (it depends on the Fund Management Company’s discretion), the weekly valuation date is the business working Tuesday in the following week. The monthly valuation date is the first day of the following month. Should the Fund Management Company change the valuation date, the Fund Management Company must obtain the approval from the Board of Representatives (the “BoR”) before making any changes.

Method of net asset value valuation

The Fund’s net asset value is calculated at total assets less its liabilities as at the valuation date. Total value of Fund’s assets is measured at their market value or fair value (in case where market value is not available). Total liabilities are debts and payment obligations of the Fund as at the date prior to the valuation date.

3.1 Basis of preparation of financial statements

The interim financial statements have been prepared in accordance with Vietnamese Accounting Standards, Vietnamese accounting regulations and other relevant regulations applicable for open-ended investment funds including Circular 198/2012/TT-BTC issued by the Ministry of Finance on 15 November 2012 on the promulgation of accounting system for open-ended investment funds (“Circular 198/2012/TT-BTC”), Circular 181/2015/TT-BTC issued by the Ministry of Finance on 13 November 2015 on the promulgation of accounting system for exchange-traded funds and open-ended investment funds (“Circular 181/2015/TT-BTC”), Circular 98/2020/TT-BTC issued by Ministry of Finance on 16 November 2020 on providing guidance on operation and management of securities investment fund (“Circular 98/2020/TT-BTC”) and prevailing regulations on preparation and presentation of financial statements applicable to open-ended investment funds.

The accompanying financial statements are not intended to present financial position and investment portfolio, results of operations, changes in Net Asset Value, subscriptions and redemptions of Fund units and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam. The accounting principles and practices utilised in Vietnam may differ from those generally accepted in countries and jurisdictions other than Vietnam.

The interim financial statements in Vietnamese language are the official statutory interim financial statements of the Fund. The interim financial statements in English language have been translated from the Vietnamese language interim financial statements.

In accordance with Circular 198/2012/TT-BTC, the Fund’s interim financial statements include the following reports:

1. Interim statement of income
2. Interim statement of financial position
3. Interim statement of changes in Net Asset Value, subscriptions and redemptions of Fund units
4. Interim statement of investment portfolio
5. Interim statement of cash flows
6. Notes to the interim financial statements

3.2 Registered accounting documentation system

The registered accounting documentation system is the General Journal system.

4 SIGNIFICANT ACCOUNTING POLICIES

4.1 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank in current accounts used for the Fund's operations, cash of fund unit holders deposited for subscriptions and other short-term investments with the maturity within three (03) months, which are readily convertible to cash and subject to an insignificant risk of conversion.

4.2 Investments

Classification

The Fund classifies its investment in securities as held for trading.

Recognition/de-recognition

Purchases and sales of investments are recognised at trade date. Investments are derecognised when the right to receive cash flows from the investments has expired or the Fund has transferred substantially all risks and rewards of ownership of the investments.

The cost of securities classified as held for trading is determined by the weighted average method.

Initial recognition and subsequent measurement

Investments are initially recognised at the cost of acquisition and revalued as at the reporting date in accordance with Circular 198/2012/TT-BTC.

Term deposits

Term deposits are subsequently measured in accordance with Circular 198/2012/TT-BTC at principal amounts as of the reporting date.

Listed Corporate bonds on securities exchanges

The market price Average of quoted price (or other similar terms upon Stock Exchanges' rules) of the latest trading date prior to the valuation date plus accumulative interest (if the listed price excluding accumulative interest).

In case where there is no trading transaction over fifteen (15) days up to the valuation date, the bond price shall be prioritized as the following order:

- Price of the lasted reporting cycle but not over 3 months up to the date prior to valuation date, plus accumulated interest;
- Purchase price plus accumulated interest;
- Par value plus accumulated interest.

Accumulated interest of Listed Corporate bonds is recognised as receivables in the statement of financial position and statement of investment portfolio at the reporting date.

(continued)**

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

4.2 Investments (continued)

Unlisted bonds

For bonds that have been offered to the public but have not been approved by the stock exchange for listing: The price is determined as the purchase price plus accumulated interest up to the end of day before the valuation date.

Accumulated interest of unlisted bonds is recognised as receivables in the statement of financial position and statement of investment portfolio at the reporting date.

Gain or loss from revaluation of investments

Gain or loss from revaluation of investments are recognised in the interim statement of income in accordance with Circular 198/2012/TT-BTC.

4.3 Receivables

Receivables represent amounts receivable from securities trading, dividend receivables, accrued interest from bonds, accrued interest from bank deposits, accrued interest from transferable certificates of deposit and other receivables, and are stated at cost.

Provision for doubtful debts is made for each outstanding amount based on number of days past due according to initial payment commitment (ignoring any mutually agreed extension), or based on the estimated loss that may arise.

Increase in provision of overdue receivables from investments sold but not yet settled is recorded as expense in the interim statement of income.

Increase in provision of overdue dividend, bond interest, term deposit interest and other receivables are recorded as reduction of income in the interim statement of income.

4.4 Payables

Payables presented in the interim statement of financial position are carried at cost of the payables for redemption, payables for investment trading activities, remuneration payable to the Board of Representatives, payables to the Fund Management Company, the Supervising Bank and other payables.

4.5 Taxation

Under current tax regulations in Vietnam, the Fund is not subject to corporate income tax. However, the Fund Management Company is responsible for withholding tax of individuals and institutions in the following transactions:

4.5 Taxation (continued)

Distribution of dividends to unit holders

When the Fund distributes dividends to fund unit holders, the Fund Management Company is required to comply with Circular 78/2014/TT-BTC dated 18 June 2014 ("Circular 78/2014/TT-BTC") amended by Circular 96/2015/TT-BTC dated 22 June 2015 and Circular 111/2013/TT-BTC dated 15 August 2013 ("Circular 111/2013/TT-BTC") amended by Circular 92/2015/TT-BTC dated 15 June 2015 ("Circular 92/2015/TT-BTC") issued by the Ministry of Finance and Official Letter No. 10945/BTC-TCT dated 19 August 2010 issued by the Ministry of Finance regarding tax policy on profit distributions to corporate fund unit holders. Accordingly, when the Fund distributes dividends to local corporate fund unit holders, such local corporate fund unit holders are responsible for tax declaration and payment obligations arising thereon as regulated. When the Fund distributes dividends to foreign corporate fund unit holders, the Fund Management Company is required to withhold 20% BIT on the distributed dividends (excluding the Fund's distribution of after-tax profits and bond interest earned from tax-free bonds in accordance with the applicable regulations) on their behalf. When the Fund distributes dividends to individual unit holders (both residents and non-residents), the Fund Management Company is required to withhold and pay 5% personal income tax on the distributed dividends on their behalf.

Redemption of Fund units

The Fund Management Company is required to withhold and pay tax when it redeems its units from individual unit holders (both residents and non-residents) and foreign corporate fund unit holders on their behalf according to Circular 111/2013/TT-BTC amended by Circular 92/2015/TT-BTC, Circular 25/2018/TT-BTC dated 16 March 2018 and Circular 103/2014/TT-BTC dated 6 August 2014 issued by the Ministry of Finance. The tax rate is 0.1% of redemption proceeds. The Fund Management Company is not responsible for withholding and paying BIT on redemptions proceeds paid to local corporate fund unit holders. These local corporate fund unit holders are responsible for their own BIT declaration and payment obligations according to Circular 78/2014/TT-BTC amended by Circular 96/2015/TT-BTC dated 22 June 2015.

4.6 Provisions

Provisions are recognised when:

- The Fund has a present legal or constructive obligation as a result of past events;
- It is probable that an outflow of resources will be required to settle the obligation; and
- The amount has been reliably estimated.

Provision is not recognised for future operating losses.

Provisions are measured at the expenditures expected to be required to settle the obligation. If the time value of money is material, provision will be measured at the present value using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as an interest expense.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

4.7 Share capital and undistributed profits

The Fund's Certificates are classified as equity. Each certificate has a par value of VND10,000.

Number of allotted Fund units shall be rounded down to two (02) decimal places.

Subscription capital

Subscription capital represents the unitholders' contributed capital in initial public offer and in subsequent Fund's unit subscription cycles after the conversion date or in switches of Fund units between open-ended funds under common management of the Fund Management Company. Issued capital is recorded as par value.

Redemption capital

Redemption capital represents the gross redemption amount paid to unitholder in subsequent Fund's unit redemption cycles after establishment date or in switches of Fund units between open-ended funds under common management of the Fund Management Company. Redemption capital is recorded at par value.

Share premium

Share premium represents the difference between the net asset value per Fund unit and par value per Fund unit in a subscription/redemption transaction.

Undistributed profits

Undistributed profits represent cumulative undistributed profits as at reporting date including cumulative realised profits and cumulative unrealised profits.

Realised profits incurred during the period are the difference of total income and revenue after deducted unrealised gains from revaluation of investments and total expenses.

Unrealised profits incurred during the period are unrealised gains from revaluation of investments.

The Fund determines realised profits and unrealised profits and posts into Undistributed profits at the end of each reporting period.

Profits/assets distributed to unit holders

These are profits/assets distributed to unit holders during the period and their amounts are deducted against undistributed profits.

The Fund recognises profits/assets distributed to unit holders based on Resolution of the Investors' General Meeting, in accordance with the Fund Charter and prevailing securities regulations.

Profits is distributed to unit holders by the Fund Management Company after deductions of all taxes and fees in accordance with prevailing laws and regulations.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

4.8 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Interest income

Interest income from deposits at banks, interest income from transferable certificates of deposit and interest income from bonds are recognised in the interim statement of income on an accruals basis unless collectability is in doubt.

4.9 Expenses

Expenses are recognised on an accruals basis and prudent concept.

4.10 Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the Fund are related parties of the Fund. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Fund that gives them significant influence over the enterprise, key management personnel and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering of related party relationship, the Fund considers the substance of the relationship but not merely the legal form.

4.11 Nil balances

Items or balances required by Circular 198/2012/TT-BTC that are not presented in these interim financial statements indicate nil balance.

10 FINANCIAL RISK MANAGEMENT AND FAIR VALUE

On 6 November 2009, the Vietnamese Ministry of Finance issued Circular 210/TT-BTC providing guidance on the application of International Accounting Standards regarding the presentation and disclosure of financial instruments ("Circular 210/TT-BTC"), which is applicable for financial statements whose year ends at or after 1 January 2011. Circular 210/2009/TT-BTC provides definitions of financial instruments, classification, presentation and disclosure including financial risk management policies and fair value of financial instruments.

The Fund has exposure to the following risks from financial instruments:

Credit risk
Liquidity risk
Market risk

The Fund's investment portfolio comprises cash at bank and term deposits at bank. Management of the Fund Management Company has been given a discretionary authority to manage the Fund's assets in compliance with the Fund's investment objectives. Compliance with the investment restrictions is monitored by the Supervising Bank on a daily basis. If any breach to the investment restrictions is found, the investment portfolio shall be adjusted by the Fund Management Company to comply with the established restrictions.

(a) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund, resulting in a financial loss to the Fund. It arises principally from cash at banks, transferable certificates of deposit, investments in securities and receivables from investment activities.

All current cash at bank and term deposits were placed with financial institutions where the Fund did not expect any losses.

Receivables from investment activities include interest receivables from term deposits. Credit risk relating to unsettled transactions is considered minimal due to the good credit rating of the counterparties and short securities settlement period. The maximum exposure to credit risk faced by the Fund is equal to the carrying amounts of cash at bank, transferable certificates of deposit and receivables from investment activities.

As at 30 June 2022 and at 31 December 2021, there were no any doubtful debts.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2022
(continued)**

10 FINANCIAL RISK MANAGEMENT AND FAIR VALUE (continued)

(b) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Open-ended funds face high risk of liquidity due to obligation to redeem its Fund units from unitholders.

The Fund's approach to managing liquidity risk is to maintain a highly liquid investment portfolio which comprises listed securities and bank deposits to meet its liquidity requirements in the short and long term.

As at 30 June 2022 and as at 31 December 2021, all of the Fund's liabilities were due within 1 year.

As at 30 June 2022 and as at 31 December 2021, there was no obligation relating to derivative financial instruments.

(c) Market risk

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates and market prices will affect the Fund's income or the value of its investment portfolio.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Fund's financial instruments will fluctuate as a result of changes in market interest rates. The fund is exposed to interest rate risk primarily related to bank deposits and fixed-income corporate bonds. This risk is arisen when the market interest rate is increased, the value of bank deposits, listed corporate bond, has been decreased.

The Fund Management Company manages interest rate risk by analysing the competitive situation in the market in order to obtain interest rates that are beneficial to the Fund's purposes and remain within its risk management limits.

As at 30 June 2022, the Fund assessed that market interest rates will remain under control at a stable level. Therefore, interest rate risk has a negligible impact on the Fund's performance. Details of interest rates on bank deposits, listed corporate bonds are presented in Note 6.2.

Currency risk

Currency risk is the risk that the value of the Fund's financial instruments will be affected by changes in exchange rates. The Fund is not exposed to currency risk as the Fund's assets and liabilities are denominated in Vietnamese Dong, which is the Fund's functional currency.

**NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2022
(continued)**

10 FINANCIAL RISK MANAGEMENT AND FAIR VALUE (continued)

(d) Fair value of financial assets and liabilities

Financial assets of the Fund comprise:

- Cash and cash equivalents;
- Term deposits with maturity more than three (3) months;
- Listed corporate bonds
- Interest and other receivables.

Financial liabilities are contractual obligations to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Fund or contracts that will or may be settled in the Fund's own equity instruments.

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable, willing parties in an arm's length transaction.

Fair value measurement approach has not been stipulated in neither Circular 210/TT-BTC nor Vietnamese Accounting Standards, Circular 198/2012/TT-BTC, Circular 181/2015/TT-BTC, Circular 98/2020/TT-BTC and prevailing regulations on the preparation and presentation of financial statements applicable to open-ended investment funds.

Therefore, the Fund applies method of NAV valuation in accordance with Circular 98/2020/TT-BTC, the Fund's Charter and Valuation Manual approved by the Board of Representatives to determine fair value of the Fund's financial assets including cash and cash equivalents and investments. Fair value of the Fund's other financial assets and financial liabilities approximate their carrying value due to short-term maturity of these financial instruments.
